

Certificate of Compliance RoHS (Restriction of Hazardous Substances) Declaration

12 July 2018

The majority of MadgeTech's EEE product offerings were placed on the market prior to June 2017 and not modified since, allowing for compliance based on Article 4, paragraph 4e of EU Directive 2011/65/EU (RoHS). However, MadgeTech completed a conformity assessment of our products to determine which if any fail to meet the maximum concentration values tolerated by weight as stated in Annex II of the standard.

This assessment found most of MadgeTech's industrial monitoring and control instruments have been designed and manufactured in accordance with EU Directive 2011/65/EU Article 4. However, the following data loggers are those we cannot currently attest would meet the latest directive;

RFOT-FR, RFOT-4-TD, RFOT-4, RFOT-7, RFOT-12
Motion 110
Bridge120 (all ranges)

If you have any questions, or require a statement for a specific product, please contact us at information@madgetech.com or call 603-456-2011.
